

ST. DAVIDS CRICKET CLUB

8th Annual Report 1972-73
and
Balance Sheet

PRESIDENTS REPORT

Once again we have enjoyed success both on and off the field and this can only be attributed to the effort and hard work contributed by all members. With new members joining the club we were able to enter another team and this was greatly assisted by the negotiation of a bank overdraft which was organised by the committee.

The pavillion was a great asset to us and combined with further social functions helped to bring all members and their families closer to the club and of course raise funds which was of prime importance.

My role as President was made relatively simple and I wish to thank the following:

- (A) A hard working committee and in particular a most dilligent secretary.
- (B) A go-ahead social committee who planned some most successful ventures.
- (C) All junior team managers who took the time to foster and improve our future senior members.
- (D) Club members in general who gave full support to all suggestions etc. put forward by the committee.
- (E) The ladies who provided refreshments etc. at the pavillion which also helped to provide a social uplift between St. Davids and visiting clubs.

B. Arthur.

SECRETARIES REPORT

The season 1972- 73 was one of mixed successes with our new D 2 side finishing in the middle of the ladder and all our other sides making the finals, three of them the grand final however, we failed to take off any penants.

- A 2 After being narrowly defeated in last years B 1 grand final the A 2 side were again beaten in the grand final, this time by a better side. The side must be congratulated however on reaching the grand final.

| | | |
|-----------------|-----------|--------|
| Batting average | B. Arthur | (42) |
| Bowling average | J. Newham | (13.4) |

C 2 After a shaky start this team made the grand final by beating the top side convincingly in the semi-final but again were beaten by a better side on the day.

Batting average W. Henning (21.4)
Bowling average D. Sutherland (11.2)

D 2 With mainly U16 and the old veterans this side had mixed fortunes during the year. In several games they were soundly thrashed but in their victories they showed great promise for the future with many juniors acquitting themselves respectably.

Batting average D. Mitchell (27)
Bowling average J. Hall (17)

U16 After a brilliant start to the season this side limped into the finals due mainly to the efforts of Ross Arthur their skipper. In the semi they beat the top side easily but as with the senior sides failed to take off the pennant despite a gallant second innings fight back.

Batting average R. Arthur (45.9)
Bowling average R. Arthur (8.7)

U14 Another side to make the finals after a mercurial season in which Peter Anderton won the Association bowling average. After amassing a large first innings total this side were unable to press home their advantage and were eliminated in the semi-final.

Batting average G. Grigorescu (22.2)
Bowling average P. Anderton (5.1)

U12 The U12 side appeared to be following in the footsteps of the previous seasons side when they were undefeated in the home and away games. However they were stopped short in the semi where they failed by 15 runs in the first innings and did not have time in the second.

Batting Average S. Anderton (27)
Bowling Average T. Hurren (2.6)

This season statistically has been our best ever with several new club records being broken and with many highlights some of which were mentioned in the newsletter. Some of these were:

- Don Mitchells 76 in ten overs against Donvale
- Mick O'Keefes 151 n.o. in 90 minutes against Donc. C. of C.
- John Newhams bowling in the semi final
- The form of the "old brigade" Ken Helling and Ken Clark in the finals where they broke the ninth wicket partnership twice in the one match
- Plus many others as shown on the records.

In closing I would like to thank all the committee members and players for their support during the season.

Bill Henning.
